How to Waterless Wash

A Waterless car wash is a High Lubricity Pre-Mixed Spray Detailer that's Used to heavily Saturate a Panel and then you carefully Wipe and Dirt or Road Grime off to a dry Shine. Water washes should only be used on vehicle with light dirt accumulation. They are a fast way to clean your Vehicle between washes.

Ecofriendly Car Wash Compact Portable Trolley

MLCP PARKING CAR WASH LLC Is a premier Car washing Company Located in Dubai. We Dedicated to giving your car a showroom shine whilst wasting no water. Our Service is simple Green Clean and Convenient. Well Clean your car Whilst you are a sleep or at work! ✨

About us! ✨

Established in 2026 and successfully operating in prestige business establishment. We are operating with the pride of environmental commitment by embracing the ecological car wash system.

Our Products

Water-less and zero Electricity system uses the harmless and water-soluble product often found in food. 100% Eco friendly products that do not add pollution and help protect our Environment.

01 | SPRAY

Spray onto Panel
And a Clean Microfiber Towel

02 | WIPE

Using a microfiber
Towe, wipe Off Panel.

03 | SHINE

Using a second dry
Microfiber towel, buff off.

How it Works

- Spray the chosen Eco Drift product on the micro fibre towel and on the surface of the car
- Wipe the dirt off Surface of the car quickly, using the micro fiber towel.
- All we have to do next is to polish the Surface With another micro towel. So we could enjoy the long lasting shiny Effect and Superior protection.

Organic Products

- Our Products are eco-friendly and interior products are all organic. We use less than gallon of water with absolutely zero-waste.

Experienced Team

Our crew members are all trained and skilled and fully equipped with equipment and supplies needed that we can deliver the best results.
